Attached is a very rough draft. If you wouldn't mind tracking your changes so we know what to replace that would be very helpful. Just substance—we have a lot left to fix on it. (Basically compiled everything we received, now it's time to edit!) Wanted to get this to you sooner than later so just ignore the nonsense. Let us know if you have any questions.

OW and some bullets from R6 should roll in tomorrow around 1PM. We'll flag for you then.

Update: just missing OW. We are compiling and will get the rest to you soon. Will have OW's additions by noon tomorrow and send your way. Thanks again, we appreciate it!

We're still waiting on most project offices. Hopefully will have them in the morning. It will probably take a couple hours of following up. We'll get them to you as soon as we can. Our due date is Wed. Appreciate it!

Hey Britt—just checking in on these. My Monday's a little busy but I should be into the office early am and I plan to work a few more hours this evening. If that doesn't work I can try to bump a few things during the day. Thanks.

Hey Katharine,

Happy to walk you through what this is in more detail. Wondering if it would be easier to send you our end product of what we compile from the regions and project offices? We will need a quick turnaround Monday if that's the case.

Best,

-Britt

Hi all,

Attached are the hot topics we received from the regions. (For those paying close attention, R7 said they did not have any work worth flagging for KS & NE.)

If you could please take a look and send back edits by **COB this Friday, 1/31** (at the latest 9am Monday, 2/3) we'd appreciate it. **Please track your edits** (this will help with version control and making sure all edits make the cut).

Please let us know if you have any questions.

Thanks again!

Best regards,

-Britt

Hi everyone,

Sent the below email out to the regions today. Wanted to flag for your offices too. Summary of the below email: The Western Governors' Association is hosting breakfast meeting with cabinet officials & governors on February 9th. To prepare the Administrator's briefing book, please send Jordan (cc'd) and me any hot issues or updated briefing papers that apply to these states by **COB Tuesday, Jan. 28**. We're looking for very high-level issues, max 1-2 sentences each. See attached for formatting examples (these are from last year). One pagers are okay for the larger issues (I'll include them as attachments to the briefing.)

Know the is twofold for you—once I have the updated information from the regions I will send to you as well to avoid any discrepancies.

Thank you and please let me know if you have any questions or suggestions.

Best regards,

Britt
